Level 1: Crystal Removal

Crystal implants were at one time physically implanted in your body to impose limitations upon you. They now appear in the etheric body as imprints and may be keeping you from going forward in this lifetime. We can remove these imprints (limitations), allowing you to do, see, and feel things you have previously been unable to do in this lifetime. People describe an unshakable inner calm after they have had them removed. When you have level one done, you will receive a form stating where all the crystals (blockages) were located in your body (this form will differentiate between the earlier implants (Starseed, Mu, Lemuria) and the later implants (Atlantis). A brief statement as to your purpose in those lifetimes will be provided. A sample of the Crystal Systems will follow the Crystal Removal Form. You will also receive additional information on what to do next.

If you choose to do this work, we will need your full name, birth date, address, and phone number.

When you have level one done, you will receive a form stating where all the crystals (blockages) were located in your body (this form will differentiate between the earlier implants (Starseed, Mu, Lemuria) and the later implants (Atlantis). Sample Form: Level I – Crystal Removal

Name _____ Birth date _____

Date: _____

Starseed, Mu, Lemurian Eras (whichever were marked)

Starseed ___ Mu ___ Lemuria ___

Total Systems: _____ Total Crystals: _____

A system is made up of a group of crystals... total is counting all crystals in all systems.

Atlantis _____

Total Atlantian Implants: _____ (Master Crystals)

Your purpose in THOSE eras: _____

Starseed, Mu or Lemurian Systems	Atlantian Implants	Front Back
----------------------------------	--------------------	------------

In the order of implantation	Master Crystals	
------------------------------	-----------------	--

Root ___	Root ___ ___	
----------	--------------	--

2nd Chakra ___	2nd Chakra ___ ___	
----------------	--------------------	--

Solar Plexus ___	Solar Plexus ___ ___	
------------------	----------------------	--

Diaphragm ___	Diaphragm ___ ___	
---------------	-------------------	--

Respiratory ____	Respiratory ____ ____
Heart ____	Heart ____ ____
Thymus ____	Thymus ____ ____
Throat ____	Throat ____ ____
3rd Eye ____	3rd Eye ____ ____
Crown ____	Crown ____ ____
Endocrine ____	Well of Dreams ____
Lymph Glands ____	Cheeks ____ L R
Skeletal System ____	Ears ____ L R
Outer Extremities ____	Elbows ____ L R
Chakra System ____	Wrist ____ L R
Skin ____	Hands ____ L R
Other ____	Fingers ____ L 12345 R 12345
	Knees ____ Back L R Front L R
	Ankles ____ Inside L R Outside L R

Sample Form: Crystal Systems

When implants were being planned for an individual, we feel that the people doing the implants planned and programmed the crystals that would correlate with the chakra, skeletal, respiratory, endocrine and circulatory systems.

Chakra System: 1st Chakra or Root Chakra (womb to 12 months)

Everything that happens to us or our parents while we are in-utero and newly born is locked into our first chakra. In a nutshell, core issues regarding emotional insecurity and physical security originate in this chakra, as do spiritual perceptions that relate to our right to exist and have our needs met. These core issues become issues regarding career, money, primal feelings, addictions, family of origin, and sexuality at later dates. The body, foundation, survival, roots, grounding, nourishment, trust, health, home, family, prosperity, creativity. Mental Belief – Affects those relating to inherited beliefs, gender legacies, safety, and survival. Feeling Component – Origin of feelings and about self and the world, the right to exist, and primal feelings such as guilt, terror, rage, joy and shame. Physical Processes – Body and structure developed; affects all processes governing survival. Spiritual Perceptions – relates to commitments to life, acceptance of spiritual help and our basic intuitive abilities. Relates to trust in others and awareness of basic needs.

Core of worth issues. 2nd Chakra (6 months to 24 months)

Change, movement, flow, sensation, pleasure, emotion, need, desire, The shadow, guilt, duality, sexuality. Mental Belief – Awareness of feelings and the right to express them; world/family vies about gender roles and sensuality issues. Beliefs about expression and creativity. Feeling component

– Development of subtle feelings, choices about which feeling bodies to activate and which to become numb. Physical Processes – Growth, motor skills, owning of our own body and its subtle needs; ability to motivate our own body; development of sensuality. Spiritual Perceptions – Development of trusts in self and our own feelings, plus empathy and beliefs about the right to express and feel. Root of the right to be creative and expressive.

3rd Chakra or Solar Plexus (18 months to 4 years)

Energy, activity Autonomy, authority, individuation, will, self-esteem, shame, proactivity, power

4th Chakra or Heart Chakra (4 years to 7 years)

Love, balance, self-reflection, self-acceptance, relationships, intimacy, anima/animus, Eros/thantos, grief compassion, devotion

5th Chakra or Throat Chakra (7 years to 12 years)

Symbolic thinking, resonance, etheric body, communication, the voice, truth and lies, creativity

6th Chakra or Third Eye (adolescence)

Pattern recognition, Archetypes, symbols, images, dreams, intuition, transcendence, vision, clairvoyance, illusion

7th Chakra or Crown Chakra (early adulthood and throughout life)

Consciousness, awareness, the witness, belief systems, operating systems, universal identity, attachment, higher power, transcendence, immanence, divinity, information, intelligence meaning unity

8th Chakra

9th Chakra

10th Chakra

Diaphragm

Thymus

Well of Dreams

Palms of Hands

Bottom of Feet

Skeletal

All joints and some joints more than once especially elbows, wrists, finger tips, knees, and ankles.

Respiratory System

The inability to breathe normally, you have to remember to breathe and could be susceptible to lung problems (asthma, bronchitis, sore throats, shortness of breath, etc.). Being able to breathe deeper helps you stay in your body and helps you to ground.

Endocrine System

The endocrine glands secrete hormones, substances that transmit humoral information (commands) throughout the body.

Circulatory System

The body's nervous system is divided into the central nervous system and the peripheral nervous system. The brain and spinal cord comprise the central nervous system. The brain is the site where mental activity occurs, and brain and spinal cord together act as the center for maintaining life. The peripheral nervous system is the communication pathway connecting the central nervous system with the various parts of the body.

Lymphatic System

The lymphatic system performs the important function of protecting the body from infection by pathogens and other causes.

The cost for this level is \$150.00
