LEVEL THREE : Soul Emergence Patterning

Explanation of Level 3

As soul emerged from Source, it was given a set of blueprints/symbols. The symbols live in your auric field. The symbols are independent energies, but work as a carefully orchestrated symphony. Through the “ages” some of the symbols have become distorted, aberrated, or are missing. Diane will be shown what the symbols(s) look like now and will ask the universe how it should look. She will then draw the symbol two dimensionally. Loren will erase the aberration/distorted symbol and redraw and place them into your aura. These symbols are actually 3D living energies, the shape-shifting takes place after Loren draws them. Please remember that we only facilitate – the higher powers actually replace these blueprints through us. Your individual symbol(s) will be named by your higher self, but you can look at each individual division to get more information about your symbol(s). Within each division, your symbol can stand for the entire list and was titled a particular thing just for the ease of the transcriber (Diane). Although each division is unique and separate from the others, all 12 divisions are inter-related according to your individual blueprint. Sometimes the differences between the divisions are subtle, but non-the-less different. There is no hierarchy between and within each division. The list within each division is never complete as the guides keep coming up with other ways of defining and interpreting the division. They must have a comprehensive thesaurus! Individuals that have had this work done describe completeness and tremendous clarity.
