Level 6: Soul Monad Work

We all belong to esoteric families (soul families). These are not the physical families we incarnated into in various lifetimes, but families of non-physical nature that we emerged from the God-Source with. The monad we as individuals belong to have from 8 to 20 members. (The number in your monad doesn't change – it is just that each monad will have a set number of members unique to that monad) If you want to know the number of souls in yours, ask your higher self. It is rare to have any members of your monad physical with you in this incarnation. You have always belonged to the same monad. I am not talking soul mates, twin souls, etc... I am merely talking soul families. Jane Roberts talks of the soul monad as “oversoul”... It has been referred to by many names by many authors of esoteric material. Each describing what is “right” for them. It is wise to remember not to judge what others have written (even this material), but to take the information that resonates for you. Authors many times will be very rigid in their descriptions and will offer the information as the only “correct” way to look at it. I am going into detail on this fact because you will be exposed to many philosophies... You now have the opportunity to discover, establish or define your own belief (philosophy) on soul families.

The work we did was to go to your soul monad...(your family) complete levels 1-5 and the matrix work on each of your “siblings”. By doing this, it will make your energy fields clearer... in other words, just make life a little easier.
